

## Message from MD

manroland with its strategy to extend its service portfolio to other brands has been extremely successful and has been grabbing headlines worldwide. In India, manroland has once again successfully installed an Inline registration system

(IRS) & Cutoff control system on a ManugraphM360 Press at Amar Ujala, Varanasi.

## GLOBAL NEWS

### **manroland web systems masters the relocation of a GOSS Universal system for the People's Daily in China.**

manroland web systems, has caused a great stir over the past few months with its ever increasing service provision for third party presses. Now, the latest milestone in this new field of business is relocation of a GOSS press for People's Daily, China's most influential daily newspaper. manroland has once again proved that it is the high performing business partner for the printing industry.

### **Inauguration of the ROTOMAN DirectDrive at Vogt-Schild**

The ROTOMAN DirectDrive enables industrial production of the highest standard. On a big screen, 120 guests at the inauguration event witnessed the different highlights and technological innovations live - new system prints, amongst others, magazines, placemats and business reports at Vogt-Schild Druck AG. Not only does it reduce waste, but can also be considered the world's most modern printing integration in combination with the Inline Control systems by manroland web systems. This means that the Swiss printing company's machine park is now in state-of-the-art condition and ready to face the future!
