Intellectual Property Rights of Harland Simon acquired by manroland Goss Group

In a latest development, manrolandgoss acquired the intellectual property rights of Harland Simon products. This merger would be a boost to the strategy to establish industry partnership and deliver value added service to the customers. A team of highly skilled engineers with almost 100 years of experience has been created to support the existing Harland Simon installed base.

Novexx Solutions, the Labeling partner of manroland India, participated in the 6th edition of Labelexpo India, which took place at India Expo Centre & Mart in Greater Noida from 22 to 25 November 2018. A total of 9,851 visitors from 55 countries participated in the show. It was a successful event!

New England Printer Chooses LITHOMAN Press for its Automation and Waste Reduction Capabilities

Bradford & Bigelow, the New England specialty printer well-known for its diversified and best-in-class product portfolio, announced the purchase of a LITHOMAN 48-page four-color press for its 50,000 square-foot pressroom addition at its Newburyport, Massachusetts plant location.

Another COLORMAN e:line for WEISS Druck

After the overwhelming success by the first COLORMAN e:line newspaper printing system, commissioned in 2014, WEISS Druck ordered the second identical machine. The highly modern newspaper printing machine series e:line of manroland Goss web systems successfully prevailed on a difficult market, for it provides immense benefits for users and is the answer for the modern, efficient and profitable newspaper printing – as proven by WEISS Druck.
