

Roller

Rollers

- Made out of new core and rubber cover strictly as per OEM specifications.
- Zero Tolerance Eccentricity.
- Dynamically balanced at high RPMs.
- Supplied with permounted components like bearings, circlips etc.

For webfed applications

- HS rollers for high speed
- MS rollers for medium & low speed

More Rollers

- CTP rubber rollers/silicon rollers
- Infeed rollers

CHARACTERISTICS

Even ink and water distribution

No premature wear outs and pitting at the end

Enhanced life of bearing and other expensive components

Low heat build ups

ADVANTAGES

Quick water & ink balance

Less downtime

Cost savings

Enhanced roller life

Low maintenance

Cost saving

Enhanced component life

No recurring costs

No afternoon dry ups

Maintained ink & water balance

Increased roller life

Resists shrinking, swelling, hardening and abrasion
