SERVICE SOLUTION

REFURBISHMENT

Web presses wear out in course of time. It requires reboring of cylinders, replacement of bearer and bearings. The objective of refurbishment is to revive and enhance the quality & efficiency of a press. Our expert team performs a thorough inspection and full overhaul of manrolandGoss and as well presses of other make.

Partium App – is the new a web application which offers easy identification of parts using combined image, semantic text and parts list search.

SPARE & WEAR PARTS

You can contact the service team at manrolandGoss India to place your order for spares. Thanks to the fully automated ordering process in the manrolandGoss web STORE.

INSTALLATION, COMISSIONING & RELOCATION

We undertake relocation of manrolandGoss and non-manrolandGoss Presses

PRESS AUDIT

manrolandGoss performs audit to analyse critical points for efficiency, performance and quality on the press and in the printing process and develop a concept to increase performance. manroland Goss has introduced training as part of Service Program to support its customer

Printcom is the consumables brand of manrolandGoss India and is dedicated to serve the print sector. Our offerings include the supply of pressroom chemistry, press maintenance products, blankets and rollers. We also undertake re-rubberization of rollers.

ROLLERS

- Made out of new core and rubber cover strictly as per OEM specifications.
- Zero Tolerance Eccentricity.
- Dynamically balanced at high RPMs.
- Supplied with premounted components like bearings, circlips.
- For Web & Sheetfed Offset (Conventional, Combi & UV).

Westland rollers are marketed by manrolandGoss in India

BLANKETS

The textile-based blanket are designed and formulated for extremely sharp dot reproduction and excellent paper feed on a wide range of Heatset web, Coldset web and Sheetfed applications. It is suitable for all kinds of newsprint as well as coated stock.

WASH & FOUNT

The formulation is optimized and best suited for Coldset and Heatset printing and presses equipped with spray- brush- or other dampening systems.

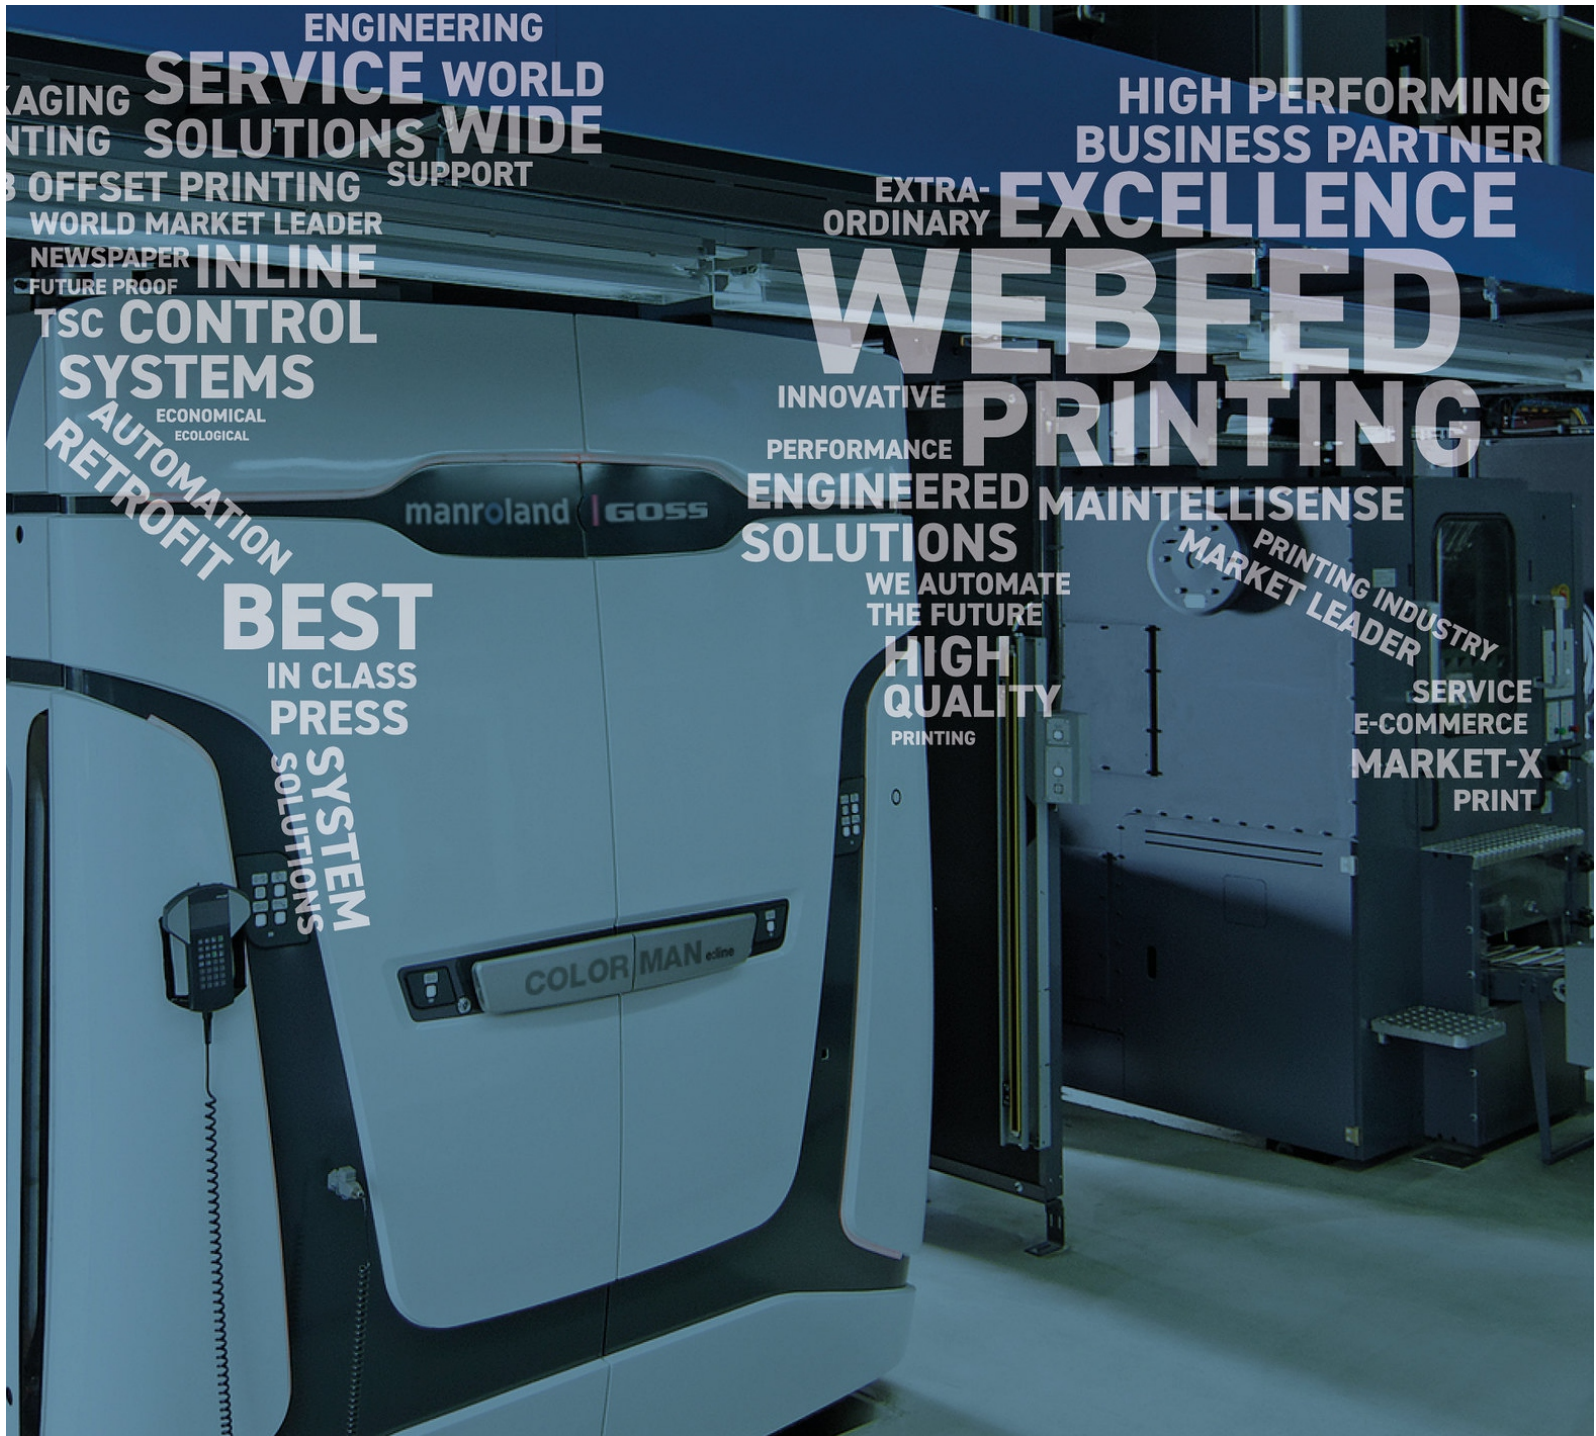

XCP PROTECTION

XCP Press Protection products are trusted by printing houses around the world to protect and maintain their printing presses and pressroom equipment. XCP Press Protection products help extend the lifespan of the press, allowing the printer to maximise capital investments.
